When some Americans go out to dinner, a popular place is an open-air restaurant. After entering the restaurant, they’ll possibly see a cat next to a sign that says “Pet Me for \$ 1”. Some owners of the restaurants have a friendly rule towards pets, which allows pets to go into the restaurant during a certain period of the week.

Americans depend on restaurants very much as they eat about 4 meals outside each week. As a result, it’s natural that they may bring their pets along. Enter “pet-friendly restaurants” online and they may find many restaurants.

Why are restaurants friendly to pets? “Dogs never waste food,” jokes one owner.

Many five-star restaurants also become more open to the new rule. And there are some cooks making a special effort for the pets. Leo is a cook at a restaurant named Fish Wagon in Calif and he serves free home-made burgers and doggie cookies to pet guests. Though more restaurants work hard to meet the needs of pet owners, some other restaurants make rules to stop pets entering the restaurants. And some restaurants allow pets to sit with their owners only when the animals are just in the designated(指定的) dining area.

- () 61. The US restaurants are getting stricter with pets. () 62. More and more restaurants welcome pet owners.

Do you like movies? Today, I'd love to introduce a(n) 1 movie to you. If you lose hope for the future, watch the movie *The Shawshank Redemption* (《肖申克的救赎》). Andy Dufresne, the main character, 2 to a prison(监狱) called Shawshank because of a killing. In fact,

Dufresne didn't do anything wrong. With great effort, Dufresne got away from the prison 3 20 years later. Hope and freedom are important themes in the movie.

In my opinion, the 4 to getting out of trouble is the hope in his heart. As he said, "Hope is a good thing, maybe the best of things, and no good thing ever dies." After Dufresne 5 to leave the prison, his friend Red said, "I have to remind myself that some birds aren't meant to be

caged(困住). Their feathers  are just too bright ..." That 6 someone is thirsty for freedom at birth.

7 scene for me is about old Brooks, an old prisoner. When he was set free, he found the world outside was his true prison. As Red said,

"These walls are funny. First, you hate them, and then you get used to

them. Enough time passes, and you depend on them." In the end, he made a surprising 8. He left a sentence — "Brooks was here" — on the wall and then killed himself.

As the world is experiencing more bad weather, it's easy to see the influence of climate(气候) change.

1 Because of this, a kind of fiction called

climate fiction, or cli-fi, has found its new life.

Johns-Putra is a scholar(学者) at Xi'an Jiaotong-Liverpool University

in Suzhou, China. He has created many books on climate fiction. "It's part of a pattern," Johns-Putra told *Smithsonian Magazine*. These books meet our need to learn more about climate change and draw our attention to it.

3 After all, it looks at a topic that is related to what's really happening in the world today. Many cli-fi novels have dystopian(反乌托邦的) themes. These themes are popular with young adult readers.

4 Some universities even offer courses in climate fiction.

5 But he knows it's certainly going to help people think about how the world gets saved.

B. 完成图表。阅读下面短文, 根据其内容, 完成表格中所缺的信息。

In science, there're quite a lot of studies on misophonia(恐音症). As you can see from the name, it describes people getting afraid of hearing sounds. An interesting finding is that another condition is often found together with misophonia in the same person. It's misokinesia(厌动症).

In science, the condition of disliking seeing others keep doing things nearby is called misokinesia. Studies show that around one third of the public may have a similar experience. Some people without misokinesia may think this condition is not a big deal. They don't think what they do can really have such a big influence on others. However, the terrible

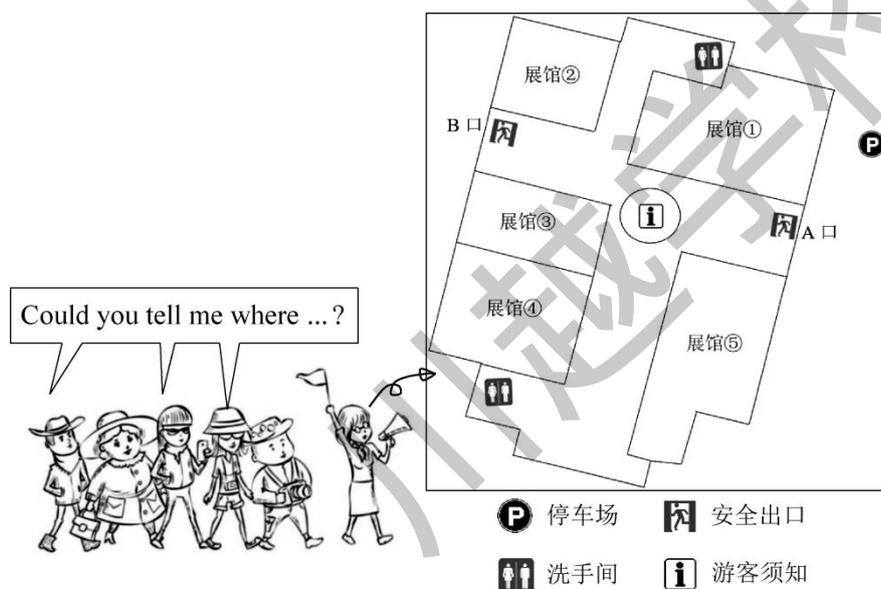

feelings can be quite strong sometimes. In fact, some people's misokinesia is so serious that they just choose to stay by themselves as much as possible. For example, some people with misokinesia can't even stand people doing everyday things like shaking their legs, turning around their pens, or walking around. As a result, they always refuse invitations to parties or games. Even worse, when people with misokinesia work in a crowded place, they may always keep an eye on everyone else's movement though they don't want to. This will badly get in the way of their work.

It seems misokinesia can bring really bad results. Unluckily, scientists still don't really know why people have misokinesia. They just suggest people don't care too much about what's happening around them. But actually, misokinesia influences each person differently. So, it's hard to say what can be done to deal with misokinesia generally.

It was a mid-winter day. My mom let me and my two brothers go outside to play for a while. My brothers were several years older than me and much bigger. Still, I decided to start the snowball fight. I hit one of them when they weren't looking and soon we were all making and throwing snowballs as fast as we could. I was lucky until one caught me in the back of the head and sent me into the thick snow. Then, I felt two hands lifted me up. It was my oldest brother.

Later, Mom called us for lunch. I sat near the fireplace in our living room to dry my wet socks and jeans. It felt so nice. I couldn't describe the feeling back then, but I know now that it was the simplest happiness.

In those days of my childhood, there was no regret for the past or worry about the future. Each day was filled with fun, laughter, and love. These are the kinds of feelings that are worth remembering.
